Screenshot

Version 31 mars 2020

Eliminate the duplicated records

- Check for duplicated records

The screenshot shows a record card for the article "The complete spectral assignment of didemnin H a new constituent of the tunicate Trididemnum cyanophorum". The card includes the journal name "Tetrahedron Letters", the year "1994", and identifiers "DOI: 10.1016/S0040-4039(00)73350-8" and "EID: 2-s2.0-0028353050". At the bottom, the source is listed as "Eliane ABOU MANSOUR via Scopus - Elsevier" with a star icon and the text "Preferred source (of 2)". A blue box highlights the "Preferred source (of 2)" text.

- By clicking on the number of duplicates, you can see the “**Source**” of the record
- When it is possible give preferences to the **Editor** source

The screenshot shows the "Sources" tab for the same record. It lists two sources: "Eliane ABOU MANSOUR via Scopus - Elsevier" (marked as "Preferred source") and "Eliane ABOU MANSOUR via Crossref Metadata Search" (marked as "Make preferred"). A blue box highlights the "Eliane ABOU MANSOUR via Crossref Metadata Search" source.

- Otherwise check the metadata and give preference to the most complete metadata.

The screenshot shows the metadata view for the record. It includes the title, journal name, year, DOI, and EID. Below this, it shows the "URL" (http://www.scopus.com/inward/record.url?eid=2-s2.0-0028353050&partnerID=MN8TOARS), the "Citation (bibtex)" in a code block, the "Contributor" list (Boulanger, A., Abou-Mansour, E., Badre, A., Banaigs, B., Combaut, G., Francisco, C.), and the "Added" (2018-05-08) and "Last modified" (2020-03-25) dates. At the bottom, the sources are listed again: "Eliane ABOU MANSOUR via Scopus - Elsevier" (Preferred source) and "Eliane ABOU MANSOUR via Crossref Metadata Search" (Make preferred). A blue box highlights the "Sources" tab and the "Preferred" status, with a blue arrow pointing from the "Sources" tab to the "Contributor" list.
